“Alarm Management”

Presented
by

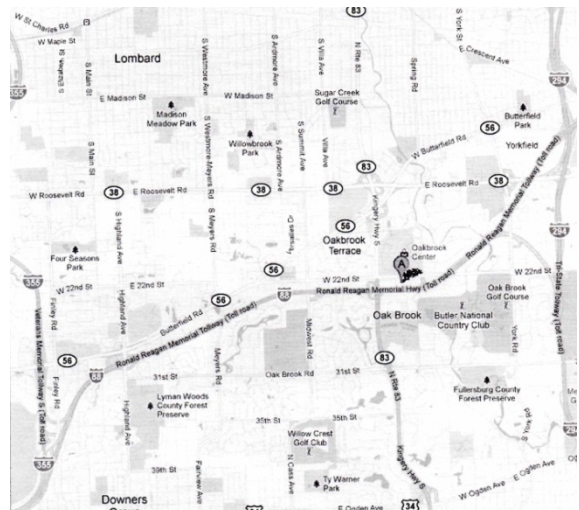

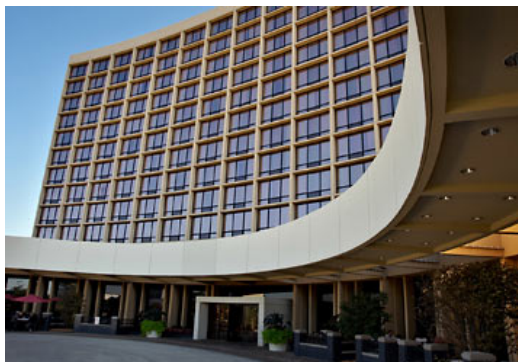

Jim Keller

Vice President, Health Technology
Evaluation and Safety at ECRI Institute

ECRI Institute has been investigating medical device related incidents for over 40 years. Many of the more serious incidents have involved clinical alarms, and the number of reported adverse events related to alarm fatigue is dangerously on the rise. Jim Keller is a published and well know expert in alarm management.

CHICAGO MARRIOTT OAK BROOK
1401 W 22nd Street, Oak Brook, IL
